

HANNA'S ILLNESS.

The Ohio Senator is Suffering From the Grip and Great Physical Exhaustion.

NO DISTINCT CHANGE IN CONDITION

A Blood Examination Will Be Made to See Whether There is Any Typhoid Present.

The Senator is Unable to Take Any Solid Food, His Nourishment Being Confined to Milk, Consequently He is Weak.

Washington, Feb. 5.—There was no distinct change Thursday in the condition of Senator Hanna, who is suffering from the grip and great physical exhaustion. In their morning report the attending physicians said there were no alarming symptoms and Thursday night they expressed the belief that if there are no untoward developments in the case the senator will recover in a reasonable time.

Thursday night, after the consultation of the physicians, Dr. Rixey made the following brief statement:

"There is no change in Senator Hanna's condition since the morning report. He was resting well at 9 o'clock. A blood examination is being made and a report will be made at 9 o'clock Friday morning. If everything goes all right from now on we will have Senator Hanna up in a week and send him away to recuperate."

Dr. Rixey ascribes the irritation which had set up in his patient's stomach to the resulting effects of the grip. Dr. Rixey does not anticipate that the examination of Senator Hanna's blood will show the presence of typhoid. If it does, however, he explained that it would be only in an "irregular" form. The blood examination was determined on, he said, as a precautionary measure with the view to ascertaining the presence of any suppurative anywhere.

Dr. Rixey said that Mr. Hanna by no means had exhausted his strength.

The senator is unable to take any solid food and Thursday his nourishment had been confined to milk. He is in consequence very much weakened. His pulse Thursday night was said to be normal with temperature slightly over 100. This is about two degrees above normal.

MRS. MAYBRICK.

After Her Release She Will Be Permitted to Land in America.

Washington, Feb. 5.—In view of the suggestion that has been made in the press to the effect that Mrs. Maybrick when released from prison will not be permitted to land in the United States on the ground that she has been a convict, it is learned that that issue probably will be avoided by the simple device of taking out a passport from the United States embassy in London. While the doctrine is not absolutely settled, the state department practice has been to admit the right of an American woman who has married an alien to regain her citizenship in America on the death of her husband by a mere assertion of her desire so to do. Mrs. Maybrick, therefore, may come into the United States as an American citizen and as such would not be subject to the operations of the exclusion laws, which apply only to foreigners.

THE LEGISLATURE.

Senate Passes the Bill Extending Registration Laws.

Frankfort, Feb. 5.—Senate—The senate Thursday passed the house bill drawn by Representative Bradley extending to fifth and sixth class towns the law requiring registration of voters and also requiring a registration certificate to be issued to every registered voter. The bill will now go to the governor for his approval. The state game and fish warden bill was passed, but with an amendment that the friends of the bill think will, in a measure, cripple its usefulness in protecting game and fish. The joint committee on charitable institutions decided Thursday night to report favorably the bill appropriating \$75,000 for additional buildings at the Hopkinsville asylum.

House—Mr. Johnson's bill to regulate the packing and selling of flour and meal, fixing weights for the fractional parts of a barrel of flour and of a bushel of meal, and providing for printing on each package the number of pounds contained therein, was defeated by 41 to 33, but a motion to reconsider was entered. The committee on redistricting secured unanimous consent to report a bill with a substitute. The substitute is the bill of County Judge Jim Hargis, of Breathitt, creating the 31st judicial district, composed of the counties of Breathitt, Knott, Magoffin and Wolfe.

EXCITEMENT CONTINUES.

Bitter Feeling Over Bill to Abolish Co-Education of Races.

Richmond, Ky., Feb. 5.—Excitement in Berea over the bill to abolish co-education of whites and blacks still continues. Though some overtures toward the towns people have been made by the college authorities the feeling is still bitter between the warring factions. J. M. Early said Thursday that President Frost had said to him that while he regretted some hasty statements he had made concerning Berea citizens who appeared before the legislative committee in Frankfort and advocated the passage of the bill, he was still firm in his opinion that he had been unjustly treated by the legislators. The passions of the Negro element are so wrought up that Mr. Early says he is apprehensive of personal violence toward himself at any time.

The best class of Berea people are determined to tolerate no longer the association of their children with Negroes at the college, and the bill introduced has brought to a head the pent-up feeling.

Eddyville, Ky., Feb. 5.—While the convicts were marching from the dining hall Robert Parker struck Charley Pool on the head with a stool, fracturing his skull. CABANA FORTRESS

United States Flag Lowered and the Cuban Emblem Raised in Its Stead.

THE AMERICAN OCCUPATION ENDED

The Last Battalion of United States Soldiers in Cuba Boarded the Army Transport Sumner.

President Palma, in an Address, Feelingly Voiced His Appreciation of All That the Americans Have Done For Cuba.

Havana, Feb. 5.—The last vestige of the American occupation of Cuba disappeared Thursday afternoon when the American flag was lowered from the Cabana barracks and the last battalion of American soldiers marched to the Triscornia pier and boarded the United States army transport Sumner.

Standing on the plain near Cabana fortress between a line of American and a line of Cuban troops and surrounded by a crowd of Americans and Cubans, President Palma feelingly voiced his appreciation of all that the Americans have done for Cuba.

The Sumner had brought the 17th and 19th companies of United States artillery from Santiago and these troops participated with the 21st and 22d companies, who have been stationed here in the evacuation of the Cabana barracks.

President Palma and the members of his cabinet, Gen. Rodriguez, commander of the rural guards; United States Minister Squiers and the members of the legation staff, took their places facing the center of the parade ground.

The lines of troops consisted of the four American artillery companies, a company of Cuban artillery, a company of rural guards on foot and a troops of rural guards, mounted. After the soldiers had presented arms, the American flag was slowly lowered from the staff over the barracks, a salute of 21 guns meanwhile being fired from the fortress. The Cuban flag was raised in its place, and also saluted with 21 guns.

President Palma then addressed Mr. Squiers and Maj. Brown, commander of the American troops, saying:

"On this momentous occasion, the sincerity and depth of my feelings overcome me and my heart must supply any deficiency of words. We are confronted by one of the most extraordinary facts recorded in the annals of universal history, the departure from our shores of the last troops the United States had kept in Cuba, after helping us to secure our independence and the blessings of freedom. They could stay longer, under any pretext whatever, or an unjust demand could be imposed upon us, but on the contrary, the government of the United States, identified as it is with the liberal spirit and noble character of the American people, willingly proves its disinterestedness and the sincerity of the aid it rendered us by taking these men away and showing us at the same time that we have, as an independent people, the confidence of one of the most powerful nations on earth."

The Sumner will sail Friday, leaving the 21st and 22d companies of artillery at Fort Barrancas, Fla., and taking the others to Fort Washington, Md.

A BAG OF GOLD.

One Containing a Large Sum Stolen From An Express Car.

Chicago, Feb. 5.—A bag of gold, said to contain between \$4,000 and \$5,000 was stolen Wednesday night from an Adams express car on the Burlington road at Sterling, Ill. The express agent, Fred Harmon, had taken charge of the bag from the safe with some packages that were to be delivered to the Sterling agent. While he was engaged in this work somebody entered the car and made off with the bag of gold. There is no clue to the thief.

OPERATOR MURDERED.

Cash Drawer in the Telegraph Office at Danville, Ky., Looted.

Danville, Ky., Feb. 5.—W. B. Rucker, 28 years old, recently married, was found dead in the telegraph office a few minutes before midnight. Rucker is the night operator. The murder was discovered by a drummer who had attempted to telephone the operator at 11 o'clock and failing to get an answer went to the office and found him dead. The murderer had escaped.

Rucker's death was evidently instantaneous, as when found he was leaning on a table, his hand resting on the telegraph key, but the key was not open and no intimation of the murder had gotten from him. The robbers fired from the outside, crashing through the window. They secured the cash drawer containing \$20 but overlooked \$120 in a sealed envelope found in his pocket.

Detectives Hughes and Mathews arrived on a special engine from Somerset. Lexington detectives are coming on a special train. No clue. A camp fire around which were three Negroes was reported by an L. & N. crew of Junction City, seven miles distant. Officers have gone to investigate. The murderer will be lynched if captured.

Stanford, Ky., Feb. 5.—Capt. V. G. Mulligan at 1 o'clock Friday morning left for Danville with bloodhounds to trace the murderer. He has little hope of securing the trail, however, on account of so many people tramping around the office after the murder was committed. The only hope is to find the cash drawer which was carried off and get a trail from it.

THE DIPLOMATIC BILL.

It Was Passed in the House of Representatives Without Amendment.

Washington, Feb. 5.—Senate—The senate chamber again Thursday was the arena of an interesting political debate with the provision in the urgent deficiency appropriation bill for a loan of \$4,600,000 for the St. Louis exposition the basis for the discussion. The exposition amendment had not been disposed of when the senate adjourned.

House—The animation of Wednesday was completely lacking in the proceedings of the house Thursday. The principal feature of the day was the rivalry between republican leaders for the honor of moving an adjournment. The diplomatic bill carrying \$1,993,600 was passed without amendment. Everything but the bill was discussed during its consideration. Mr. Morrell (Pa.) led with an argument for some system of building up the American merchants marine. A democratic political speech by Mr. Hamman (Mo.) followed.

THE CRISIS IS NEAR

Question of War or Peace in the Far East Will Be Settled in a Few Days.

THE RUSSIAN REPLY IS READY.

Both the Russian and Japanese Embassies in Washington Regard the Situation as Grave.

In the Opinion of the Russian Government Japan's Legitimate Interests in Manchuria Do Not Exceed That of Other Powers.

St. Petersburg, Feb. 5.—The Russian reply to Japan was forwarded to Viceroy Alexieff. If he approves it, it will finally reach the Tokio government on Monday.

London, Feb. 5.—The ominous rumors circulating here of the imminence of hostilities in the far east caused the rates on war risks at Lloyd's to bound upward Thursday from 40 to 70 guineas per cent.

Washington, Feb. 5.—War or peace will come with Friday. This is the general opinion in the diplomatic corps. Both at the Russian embassy and at the Japanese legation the situation in the far east is described as grave.

It is stated at the Russian embassy that the St. Petersburg government has made a determined and earnest effort for peace, even going so far as to offer magnanimous concessions in Korea. The question of Manchuria, Russia is willing to discuss, taking the ground that this is a subject for negotiation between St. Petersburg and Peking and not between St. Petersburg and Tokio. In the opinion of the Russian government Japan's legitimate interests in Manchuria do not exceed those of the United States and Great Britain or of the other powers signatory to the peace protocol of 1900. For this reason Russia has declared her willingness to discriminate between the powers and enter into a special treaty with Japan. In the event of war it may be expected that the Russian government will address the powers setting forth her position, and briefly reviewing the various steps in the negotiations. It is expected by Russia that a war manifesto will be immediately followed here by an official declaration of neutrality on the part of the United States.

St. Petersburg, Feb. 5.—Thursday the Novoe Vremia editorially said that America is the real foe screened behind Japan. The British, the paper continues, have assumed the task of betraying Europe by trucking to the United States, and speeches at the recent banquet of the Pilgrims society are cited as examples of British servility.

In conclusion the Novoe Vremia says: "When Great Britain has quite gone over to the United States, the rest of Europe will realize the urgency of united action against America."

THE Chicago Tribune had an interview recently with Hon. William Randolph Hearst in which he outlined what he believed to be the vital issues of the next campaign and he struck a note of sympathy in the minds and hearts of the majority of the Democratic leaders, when he said: "The main issue of a party of the people is to attend to the business before the people. In this country of sudden trust development the one dominating issue—made so by the trusts themselves—is the trust issue." Those two sentences strike the majority of people as the very essence of good sense, and when they were accompanied by an exhaustive outline of the conditions that exist and the issues that should grow out of those conditions, the interview, in its entirety, makes up a comprehensive Democratic platform of live issues upon which the party could go before the people and win. That is the way in which his interview, which in reality is a national platform, struck the majority of the leaders of the party in the national capital. They want a man for the nomination who stands for something definite in the shape of a Jeffersonian and Jacksonian Democracy and who not only is aggressive but progressive. The Hearst movement is a serious factor in the Democratic Presidential problem and is becoming so recognized.

Tobacco Sales.

Wm. B. Griffith, of Bourbon, sold to W. T. Overby, a crop of 10,215 pounds at 11 cents straight. It was raised on five acres, averaging 2,043 pounds, and brought \$224 75 per acre.

J. D. Noel, of the Continental, of Lexington, bought of Dr. W. C. Ussery and J. B. Wood their crop of tobacco for \$2,544 30. There was 23,120 pounds, raised on ten and one-half acres, and sold at 11 cents straight.

French, the Continental buyer at Carlisle, bought the crops of J. H. and R. P. Hopkins, about 16,000 pounds of tobacco, at 10½c straight.

In Scott, 30,500 pounds of tobacco in Payne's Depot neighborhood, sold at 3 to 10 cents.

Near Midway, 60,000 pounds sold at from 7 to 10 cents.

The Court of Appeals has affirmed the Kenton Circuit Court in the case of the Supreme Council Knights of Equity of the World vs. Carrie Heineman. The case involved a \$1,000 policy of insurance. The court holds that the "suicide clause" did not apply, as appellee's husband was temporarily insane when he took his life. This decision probably means that the companies that held policies on the life of the late H. C. McDougale will have to pay.

CARRIE FEELS SLIGHTED,

But She's Welcome to Come and See the Greatest Tobacco Fair Ever Held. Notables Expected.

[Dover News]

It is said that Carrie Nation feels slighted because she has not been invited to the Maysville Tobacco Fair Feb. 20. Noted people have been invited from Dan to Beersheba, including our Governor and Leg's stature, and the Mayors of Louisville and Cincinnati and "all-over." Every crack, crevice, crook and cranny about Maysville will be stuffed full of notables and the streets, even to the alleys, jammed with Colonels, Majors and Judges. But come on, Carrie, dear. You can get in under the general invitation extended to all mankind. Wrap your hatchet in a sample of tobacco, mix a "chaw" with your gum and sail in. Tom Davis will not turn you away.

This immediate section is showing up some of the finest tobacco ever grown in the burley district. We have seen one or two samples being prepared for the Maysville Tobacco Fair and it is our opinion that it is far superior to anything previously exhibited, not excepting the splendid premium samples shown last year and pronounced by the auctioneers from Cincinnati and Louisville to be the finest sample of tobacco they ever saw. Dover precinct never raised a finer or cleaner crop—and she has always stood at the very head in the burley district. She will set the standard a notch higher this year.

The temperature was six degrees above the freezing point when it began raining this morning, but the ground and the pavements were so much colder than the atmosphere that the rain froze after falling.

Dover News: "Coal cars are relieved of part of their burden each night as they pass through town. One had as well steal groceries from a store as coal from the railroad. One of these fine nights somebody will be explaining to a railroad detective.

The operators of the numerous slot machines in this city will likely find themselves in trouble in the next few days. It is reported the grand jury is after them. It's rather singular that these gambling machines have been permitted so long in Maysville when other cities have driven them out.

The Vanceburg Sun says Mrs. H. A. Staley had a narrow escape from being severely burned one day last week while trying to replenish a fire in an air tight stove with coal oil. The stove pipe was blown down and her hair was singed. Mrs. Staley is a sister of Mrs. James Piper, of this city.

The many friends of Rev. Garrett W. Thompson are glad to learn of his success in the ministry. He recently accepted a call from the Christian Church at Kirksville, Mo., preaching his first sermon there last Sunday. Kirksville is a large college town and the church has a membership of over 800. Mr. Thompson is a son of Mr. and Mrs. S. D. Thompson of the Fifth ward.

The remains of John Farris, who died this week at Newport, were taken to his old home in Fleming County for burial. Farris was a member of the Oddfellows lodge of Flemingsburg, and his wife and family were left destitute upon his death. The members of Noah's Dove Lodge of Newport, learning of the sad condition of Mrs. Farris and her children, went to her relief.

Mrs. Mary Wilson and daughter, Mrs. Lizzie Power, gave an elegant eight-course dinner Wednesday evening in honor of Rev. H. T. Musselman and bride. The other guests were Mr. and Mrs. A. R. Glascock, Mr. and Mrs. Arthur Glascock, Mr. and Mrs. John R. Cochran and Rev. Dr. Ryland Knight, of Ashland. Delightful music was furnished during the evening by Prof. Bullett and Miss Lida Berry.

Doan's Ointment will drive them away. Plenty of Maysville endorsement to prove this.

Mrs. H. Poth, of Forest avenue, says: "Doan's Ointment is a wonderful preparation and cures as if by magic. For a long time I had an itching of the scalp which was particularly troublesome just before a rain. Learning that Doan's Ointment was highly recommended for all troubles of this nature I got a box at J. Jas. Wood & Son's drugstore, corner of West Second and Market streets. Its use soon ended the irritation. Two months have since elapsed and I have had no return whatever of the affliction."

GIVEN LIFE SENTENCE.

Elzie Owens Convicted of the Murder of Ollie Wren—Will Spend Rest of Days at Frankfort.

Elzie Owens, colored, was tried in the Circuit Court Thursday for the murder of Ollie Wren, another negro, the jury returning a verdict of guilty during the afternoon, and fixing the penalty at imprisonment in the penitentiary for life. Owens shot Wren July 4th last at the L. and N. depot in this city. They had come in from their homes near Lewisburg that morning, and during the forenoon had some trouble on Market street. Wren tried to avoid further difficulty, and went to the depot to get away from Owens. While awaiting the departure of the train, he was approached by Owens, who renewed the trouble. Wren again tried to get away from him, but was shot, death resulting almost instantly.

Ad. Owens, a brother of Elzie, and Clay Commodore are under indictment for aiding and abetting in the crime, and the first named is on trial to-day. It is claimed he told Elzie to kill Wren.

SAM IRELAND.

Former Well Known Ashland Reporter in Trouble in Europe Where He Has Been Having a "Swell Time."

WASHINGTON, Feb. 4.—Advises have reached here from Nice that Samuel Ireland, former Secret Service operative, and one of the men who was with President McKinley when the Buffalo tragedy occurred, is one of ten men who have been arrested, charged with cheating at cards and stealing money from the gambling table.

Ireland resigned from the Secret Service after President McKinley's assassination, and became a stock broker in this city. He was conspicuous at the Capitol during the last Congress. Ireland lived in handsome apartments at the Farragut, and counted many wealthy people as his friends. Several months ago he went abroad.

It is said that he operated with an American gambler named Hurt, well known in the West and in Washington, and that Ireland, meeting American tourists abroad, introduced them to Hurt, who acquainted the tourists with European and American games of chance, which generally proved expensive pastimes for the visitors. In Paris the two men were social lions, attending the American Ambassadors' receptions, and it is said that Ireland had been invited to accompany President Loubet, of France, on his visit to Italy.

Ireland is quite well known in Maysville. While a resident of Ashland some years ago he frequently accompanied the base ball team of that city on their visits here and wrote up the games for the Ashland papers.

FOR HEAVY FIGHTING SHIPS.

Naval Appropriation Bill Carries An Aggregate of \$95,000,000.

Washington, Feb. 5.—Adm. Dewey's suggestions in favor of heavy fighting ships for the navy prevailed Thursday with the house committee on naval affairs over the recommendation of the general board, submitted by Secretary Moody. The naval appropriation bill was completed by the committee after a hearing granted Adm. Dewey. It carried an aggregate appropriation of \$95,000,000. The ships authorized are one battleship, two armored cruisers, three scout cruisers and two squadron colliers. The appropriation of \$500,000 made last year for two submarine boats was reappropriated, the boats to be purchased in the discretion of the secretary of the navy. This building program gives a total of 44,000 tons of heavy fighting ships as compared with 62,000 tons last year. The heavy construction provided will cost \$21,750,000, while the lighter construction will bring the cost of the building program up to \$28,000,000.
